

LIFE SPACE Community- and Settlement development Association

Our NGO was founded in 1997 with the aim to play an active role among the country's small settlements through a community and settlement development method in order to become an active participant in public life.

"The Seed-House" – our child and youth center - fills a gap in the city and its surroundings, which provides not only a useful way of spending leisure time, but it also gives preventive services and a place for mental development.

Age-appropriate services have been offered for different age groups of children and young people.

Here we can continue our common work with the local civils, in which we emphasize alternative activity and employment of children, youth and disadvantaged people.

Before – After

The „Seed-House”

The „Seed-House” services:

Opened house

During opening hours, we provide a place for children's and youth's self-organized groups and their programs

Safe Start program

Children's physical and mental development, an early – from 0 to 6 year-old - stage of their development, giving assistance to them according to their individual needs

Children and youth education and skill development, leisure time activities

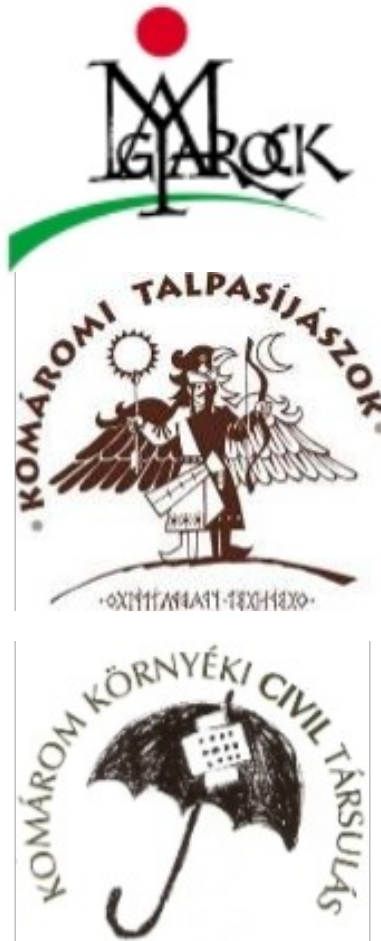

Family day care

Child-centered institution where children spend their daily time in comfortable environment, considering their individual needs, and ensuring common game and genial atmosphere.

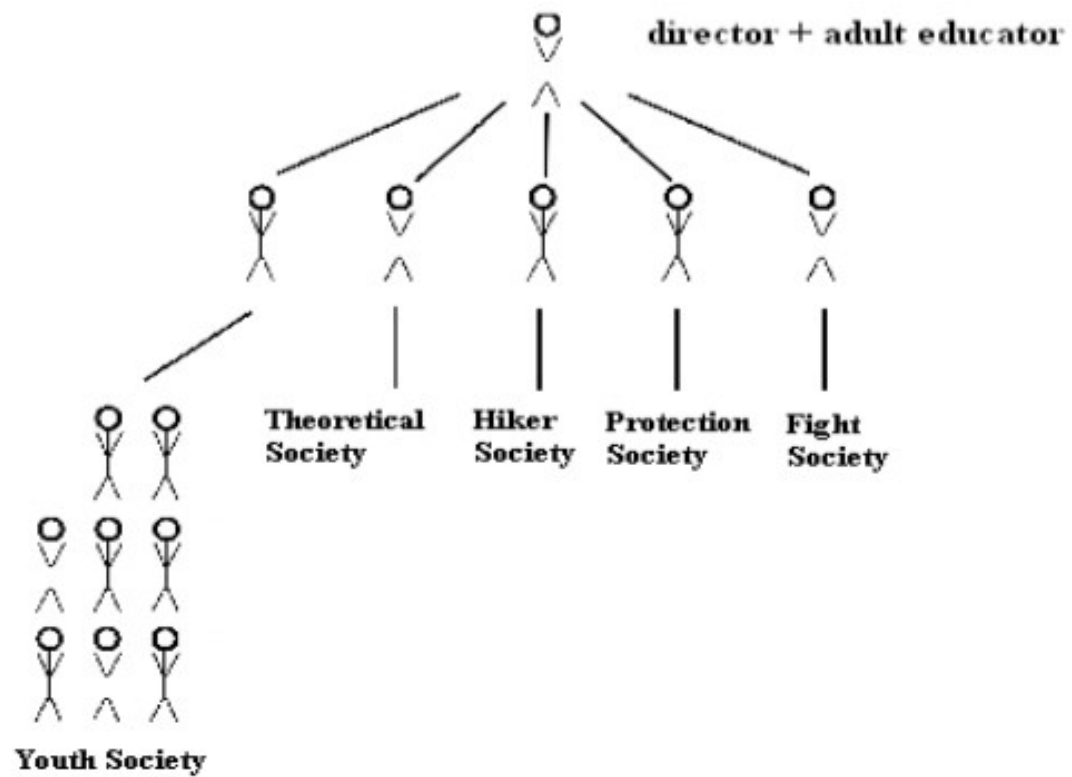

Civil Service Bureau

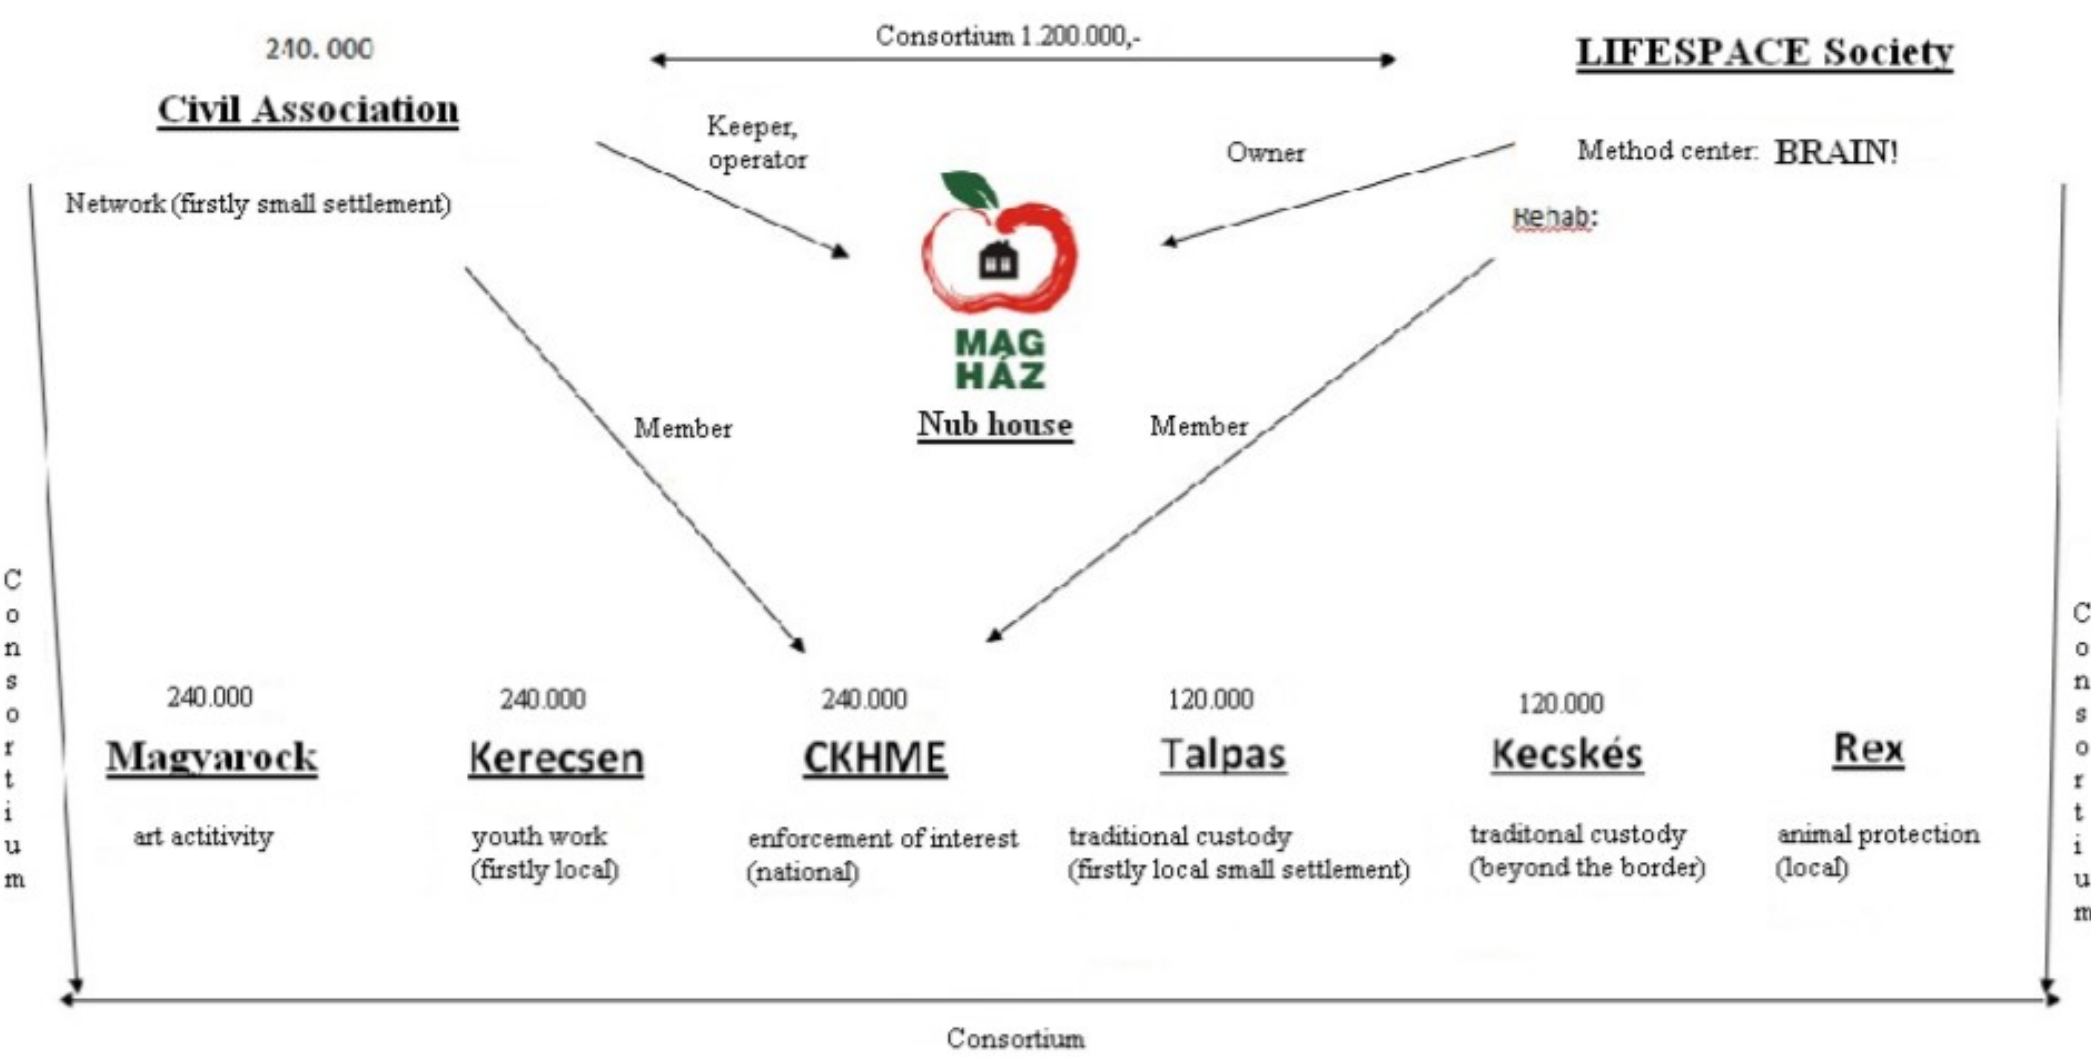

"REX"
Állatvédo Egyesület

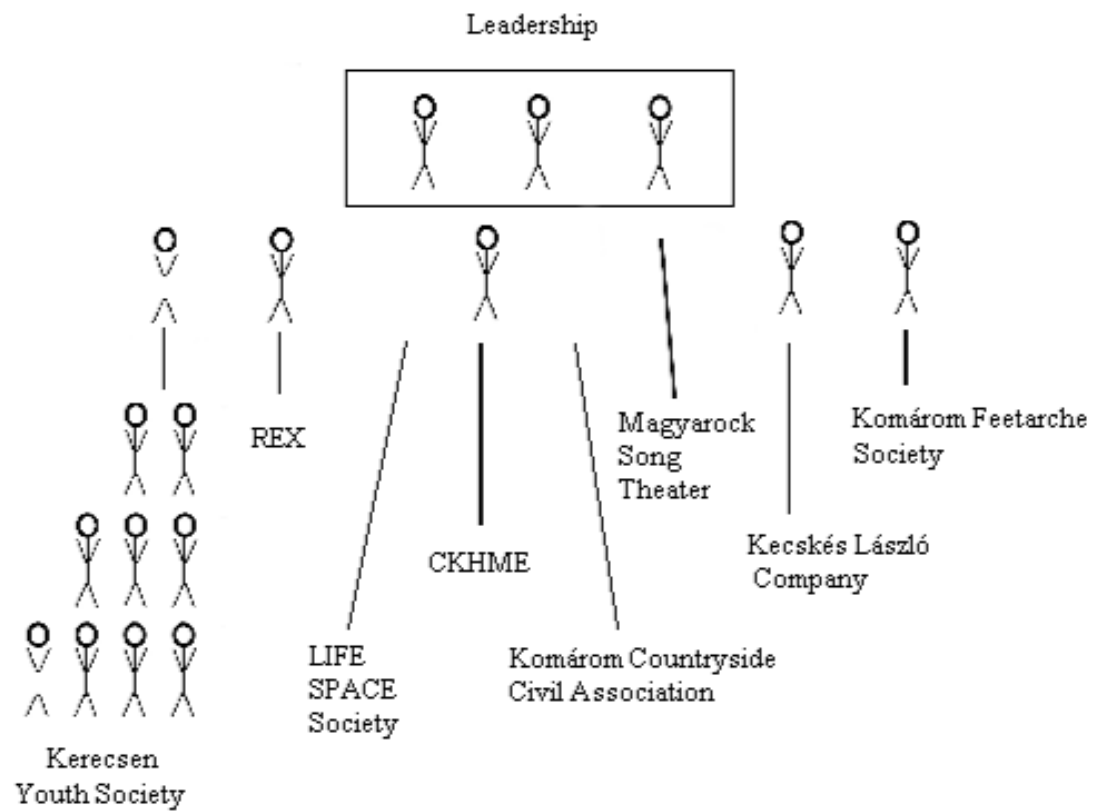

To assist and develop the regional civil society's work, using the methods of community development.
